Maximize your Talents in "Globalized" Society Diversified Career Opportunities in the Global Market

Speaker : Ms. Karen Metz

*Business Planning and Process Management Vice President
Micron Technology, Inc.*

Bio Profile:

Karen Metz is business planning and process management vice president at Micron Technology. She is responsible for the company's business planning, mergers and acquisitions integration, business process management, enterprise information management, enterprise program management, and product life cycle management. Ms. Metz was appointed to her current position in 2015. Since joining Micron in 1992, Ms. Metz has held senior leadership positions in various departments, including finance, information systems, human resources, operations and corporate development. Ms. Metz is co-executive sponsor of the Micron Women's Leadership Network and is actively involved with the Boise chapter of Dress for Success. She was also recognized as the 2015 Tribute to Women and Industry Honoree by the Women's and Children's Alliance in Boise. Ms. Metz earned a bachelor's degree in economics from the University of California, Davis.

Seminar Outline

The Japanese respect tradition carried over for ages, which has generated a considerable number of excellent companies and industries, showing stable existence in the changing world. On the other hand, we have been stressing the importance of the "Globalization" for a while, even under such traditional culture in Japan. How much opportunity do we have, however, to experience the "Globalization" in the real context? What about the opportunities to experience "Diversity"? The speaker of this seminar shares with you the scale and variety of opportunities expanded throughout the globe, with her own experience as one of the examples. We would expect you to feel how many opportunities are available in the global market and add them to your future career options.
