## April and October 2019 Admission

### General Selection and Transfer Admission into 3rd Year

### April 2019 Campus Special Admissions

TAOYAKA program offers interdisciplinary educational opportunities to develop young global leaders who can contribute to the realization of multicultural coexistence. A wide range of interdisciplinary course work on campus is integrated with intensive on-site experience in disadvantaged areas in both developed and developing countries, with special emphasis on improving lives by deeply understanding the regional societies and cultures, developing proper technologies, and implementing these to resolve problems that disadvantaged regions confront while working closely with the regions. Students can receive degrees by taking courses taught in English.

### Information Sessions

Registration is required
